

My Life Planner v51

Quick Start Guide

Blue Zebra 77

Start your day

- Check Today for appointments and fixed commitments.
- Review Needs Attention.
- Type practical one-off jobs into Today's Focus and press Return after each.
- Use the timer when you want a focused work period.

Capture something quickly

- Use Quick Add + from any main screen.
- Use Brain Inbox when you do not yet know where something belongs.
- Use Convert later to turn a quick item into a structured task.

Set repeating responsibilities

Create a Recurring Task, choose the first due date and recurrence. For a rule such as “second Thursday,” select months, Weekday position, Second and Thursday.

Find information

- Use Lists search for partial words or tags.
- Use Timeline for date-based planning.
- Use Lists for full management and editing.

Protect your data

- Open Settings -> Backup and restore.
- Create an export regularly.
- After an update, check Header, About and Developer Dashboard all show v51.
